Coinbase is continuing its recent spree of listing new crypto assets by adding support for a popular Dogecoin (DOGE) copycat.

The exchange's newest addition is Shiba Inu (SHIB), a meme token that aims to be an Ethereum-based alternative to DOGE.

The 47th-ranked asset by market cap was trading at \$0.000000000008 on January 1st. In part thanks to the tweets of Tesla CEO Elon Musk, SHIB skyrocketed by 47,387,400% to an all-time high of \$0.00003791 on

Shiba Inu is trading at \$0.00000878 at time of writing and is up nearly 30% on the day. The crypto asset SHIB is also up a whopping 8,667,114.6% on the year.
