Hello Mr Tim,

Is there any way to verify the legitimacy of these pictures ?

I know some photo editing, I guess you know it too.

So, in my objective reality this evidence of a profit is completely falsifiable.

Hello Shamil,

Yes 100%

It is improving and still along way to go, the cryptocurrency space that I have been in since 2014 has been a very dark murky space.

By the end of the next cycle it should be on par within most financial sectors. I come from and have operated under an AFSL (Australian Financial Services License) and RG146 qualified As an educator in cryptocurrency this is not required, however I have developed the Academy as if it is.

So should you come on a journey with us you shall be bored by these 2 words you shall always hear "VERFIY " and "VALIDATE" We are a GENUINE ACADEMY and NOT A MARKETING COMPANY.

In our higher-level programs payment does not deem acceptance and there is a process for entry and we do decline people into our Mastery Program especially our 12 month Create and Be Your Own Hedge Fund which has a 12 month performance assurance.

If someone is not the right fit for Mastery we guide them into the Generational Wealth Programs of which there is also a 12 month performance assurance as this program is for the more financially conservative. With our restructure we have implemented a step by step process.

Please note the overall of our site is 85% complete as there are more pages and videos to be added and will be finished before Crypto Gym starts later this month. Crypto Gym is \$AUD1 day and month to month , so someone can come on board, experience research and education to see if cryptocurrency is for them

Then they can either do our DIY (Do it Yourself) Programs or go into the Crypto Concierge Programs and then the higher level Programs

<https://cryptoacademy.world/crypto-concierge-3/>

Social Proof : LinkedIn Question about Research

After Concierge you can select any further higher education and the cost of your concierge is credited towards the program of your choice (you do not have to pay twice for a Generational Wealth or Mastery Program)

Finally, as you will appreciate - we are giving you 1-month Crypto Gym AT NO COST TO YOU as we are launching later this month.

The reason why we are doing this is as you know there is not such thing as "Free" - those participating will be asked to complete a survey as to what they did and did not like.

To thank you for your further enquiry, we shall also give you a PLUS 1 for Crypto Gym and you can bring a friend for a month Finally, I refer to all of the indicated entry points on the data chart summary as per what I sent

<https://cryptoacademy.world/our-past-performance/>

Every one of those entry points is recorded on my personal account transactional history and is available to be seen.

The height of the market is recorded on charts.

Last week I had a gentleman ask a slightly similar question and the process I out in place was that we has to enrol in any of the Concierge Programs on the provision that we would give him a "no questions 100% refund" that after the deep dive in the first session if he was not happy.

He enrolled in Concierge Elite and paid his \$996.

<https://cryptoacademy.world/crypto-concierge-3/>

After his first session I knew he had what it took to be qualify for our Mastery : Create and Be Your Own Hedge Fund. His expectations were exceeded in our first session (I also took him into the transactional accounts on the exchange) and we credited his \$AUD996 for Concierge Elite to his payment in full upfront of and he paid the balance of \$AUD6,968 upfront and his next session is booked for 11 am this Sunday.

Happy to do the same for you Shamil.

Regards Tim McCracken
